

## "275" K100LD No Clean Lead-Free Wire Solder

***Low Cost Lead-Free Alloy Designed for Hand & Rework Applications***

- Alloy is composed of tin-copper-nickel
- Performs well with all types of component & board metallizations
- Offers exceptionally bright & smooth solder joints
- Reduces inspection process - joints are no different than traditional alloys
- Excellent wetting characteristics
- Minimizes the dissolution of copper from parts & boards
